

Rise Tectonic Machines!: Construct the Exigent City!

By Marcus Shaffer, Peter Lynch

Oro Editions, United States, 2013. Paperback. Book Condition: New. New.. 231 x 196 mm. Language: English . Brand New Book. The book is a collection of drawings, models, and prototypes, which represent the author s progress in making a humanitarian building-making machine for use in [re]constructing environments of displacement. As an introduction to the project, the author assembles an architectural program (purpose) for such a device. Short text essays touch upon: - Conditions in IDP (Internally Displaced Persons) Camps that warrant automated building systems.- The need for emergency city-making as means of housing displaced urban peoples.- The lack of architecture/design in environments of displacement.- The advantages of systems-based approaches to emergency housing as compared to drop-in-place structure solutions.- A history of architectural instrumentation and tectonic machines which includes common devices such as the manual block press, and uncommon technologies such as Thomas Edison s Monolithic Pour formwork system. As an introduction to the machine specifically, the author demonstrates that formwork systems have evolved over centuries to become mobile/animated systems capable climbing and flying. The writing makes a correlation between his digi-mechanical, formwork for humanitarian construction efforts, and the evolution of automated building systems in Japan - where building-making machines have...
