Reviews

This publication is wonderful. It can be really fascinating through reading period of time. You are going to like the way the writer create this publication.

(Mrs. Piper Jacobi)

WILD HARVEST IN THE HEARTLAND: ETHNOBOTANY IN MISSOURIS LITTLE DIXIE

University Press of America. Paperback. Book Condition: New. Paperback. 100 pages. Dimensions: 8.9in. x 5.8in. x 0.4in. This work is a detailed study of people and plants in Little Dixie, a seven-county region of central Missouri. Based on three summers of field research, Professor Nolan combines ethnosience with folklore to document what and why people know about wild plants in this little-known section of the American Midwest. The book is organized around the cognitive and behavioral differences between local experts and novices who gather wild plant foods and medicines regularly throughout the seasons in Little Dixie. Ethnobotanical knowledge is described as an ongoing interaction between ecology and cognition, under constant modification by shifting cultural beliefs about edibility, efficacy, and sensory appeal. As consumable resources and symbols of belonging, wild plants are detailed with ethnographic context and vivid pen-and-ink sketches. Wild Harvest in the Heartland will appeal to a broad audience of anthropologists, ethnobotanists, folklorists, and ecologists, and will provide a welcome resource for naturalists, conservationists, and outdoor enthusiasts. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
