

# Radiation and Chemical Reaction Effects on MHD Flow in Porous Medium

Filesize: 1.48 MB

## ***Reviews***

*An extremely wonderful publication with lucid and perfect reasons. It typically will not expense too much. You are going to like the way the blogger compose this publication.*

## RADIATION AND CHEMICAL REACTION EFFECTS ON MHD FLOW IN POROUS MEDIUM

To read **Radiation and Chemical Reaction Effects on MHD Flow in Porous Medium** PDF, remember to click the button listed below and save the file or have accessibility to additional information that are in conjunction with RADIATION AND CHEMICAL REACTION EFFECTS ON MHD FLOW IN POROUS MEDIUM ebook.

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Radiation and Chemical Reaction | In this research the objective is to study the effects of thermal radiation and chemical reaction on mass transfer on unsteady free convection flow past an exponentially accelerated infinite vertical plate through porous medium in the presence of magnetic field. First of all we described the basic concepts of MHD flow. Then the resultant expressions for velocity profiles, temperature profiles, concentration profiles, skin friction profiles, rate of heat transfer profiles and rate of mass transfer profiles of the fluid have been obtained with the help of the different physical parameters. The fluid is considered here as absorbing or emitting radiation but a non-scattering medium. We used proper transformations to make the governing equations dimensionless. The dimensionless governing equations are reduced to a set of ordinary differential equations. Then we solve these equations with the help of "perturbation technique". At last the effects of various parameters on the velocity profiles, temperature profiles, concentration profiles, skin friction profiles, rate of heat transfer profiles and rate of mass transfer profiles are shown graphically. | Format: Paperback | Language/Sprache: english | 72 pp.
