

## Living in the Shadow of Death: Tuberculosis and the Social Experience of Illness in American History

By Sheila M. Rothman

JOHNS HOPKINS UNIVERSITY PRESS, United States, 1995. Paperback. Book Condition: New. 234 x 155 mm. Language: English . Brand New Book. For more than 150 years, until well into the twentieth century, tuberculosis was the dreaded scourge that AIDS is for us today. Based on the diaries and letters of hundreds of individuals over five generations, *Living in the Shadow of Death* is the first book to present an intimate and evocative portrait of what it was like for patients as well as families and communities to struggle against this dreaded disease. Consumption , as it used to be called, is one of the oldest known diseases. But it wasn't until the beginning of the nineteenth century that it became pervasive and feared in the United States, the cause of one out of every five deaths. Consumption crossed all boundaries of geography and social class. How did people afflicted with the disease deal with their fate? How did their families? What did it mean for the community when consumption affected almost every family and every town? Sheila M. Rothman documents a fascinating story. Each generation had its own special view of the origins, transmission, and therapy for the disease,...
