ENTRE NOUS

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. OCLC Number: (OCoLC)58806789 Subject: FA-22 (Jet fighter plane) Excerpt: . . . 1. 2 billion now budgeted for the start-up of the latter modernization increments. The Air Forces desire to upgrade the F A-22 s computer architecture and avionics processors in order to support the block 40 expanded 15 capabilities may also be affected by the recent budget cut. Program officials do not expect the new architecture to be fully developed and ready for installation in the F A-22 until fiscal year 2010. However, early indications show that the effort to upgrade the computer architecture - expected to cost between 400 million and 500 million - already is experiencing schedule problems and increased risks. As a result, the 2010 insertion date may not be achievable as planned for the F A-22. Furthermore, DODs proposed termination of procurement after 2008 raises questions about the need to proceed with the planned computer upgrade. The existing processors with some minor upgrades would support up to 155 aircraft and most Global Strike Enhanced capabilities. Additionally, since our March 2004 report the program office has identified new requirements needed to implement the modernization program. The F A-22 program office has concluded that the F A-22 infrastructure, including government laboratories, such as software avionics integration labs, flying test beds, and test ranges need to be upgraded to ensure a successful modernization program. According to program officials, the existing facilities have major resource capacity limitations and are inadequate to support needed software integration activities and system performance and operational testing for most planned enhancements. The program office has budgeted about 1. 8 billion through fiscal year 2009 for the infrastructure upgrades, including funds for engineering and maintenance personnel support. According to program officials,...
