Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Standard Alphabet: For Reducing Unwritten Languages and Foreign Graphic Systems to an Uniform Orthography in European Letters The need of a fixed system of orthography induced several of the missionary societies of London, a few years ago, to agree upon Rules of reducing unwritten languages to alphabetical writing in Roman characters. These Rules, though imperfect, have been already applied with success to several African languages. The societies were assisted in this work by the late Professor Lee of Cambridge, by Mr. Norris of London, and by Professor Lepsius of Berlin; but feeling it to be necessary for the establishment of any Standard system that an alphabet should be presented in a more complete form, and that the scientific principles should be explained upon which it was constructed, Professor Lepsius, at their request, kindly undertook this work, and has furnished the following admirable treatise, which will prove, it is hoped, an invaluable help to missionaries. The clear and scientific exhibition of vocal sounds which it contains will relieve Missionaries from many of their first difficulties in studying a foreign language, and will spare future translators much painful uncertainty respecting the powers of the letters which they employ. It has therefore been adopted by the Church Missionary Society as A Standard Alphabet. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
